Welcome
to
SOS WATCH
Personal Monitoring

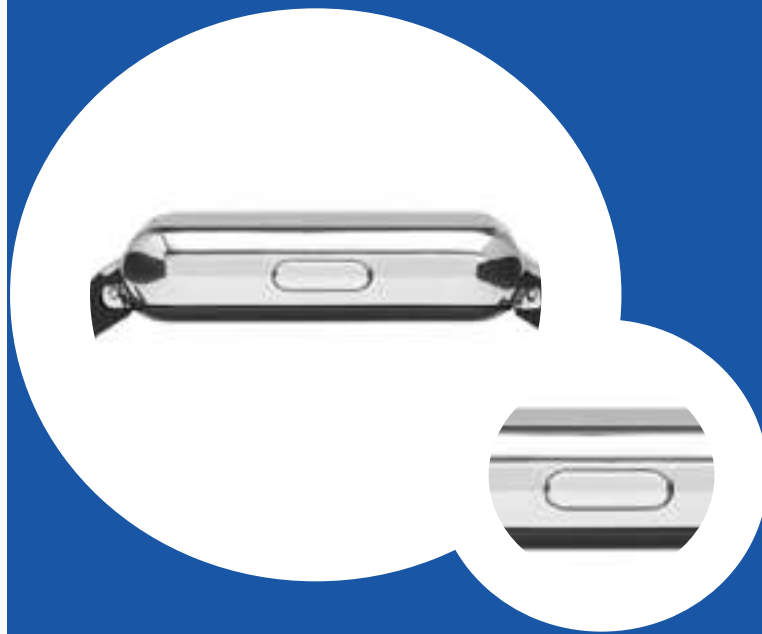

WELCOME TO SOS WATCH

Thank you for choosing SOS Watch as your personal monitoring system.

Our aim is to ensure your freedom and mobility without limiting you to the confines of your house.

DISPLAY

The display is an interactive touch screen, which is specifically designed to orient you to the time, date and day of the week. It also provides the local weather conditions. The display can be customised to meet your specific requirements.

SOS ALERT

Your SOS Watch includes a Heart Rate monitor and Pedometer. In an emergency situation, simply press the alert button for 3 seconds. This will send out a call to your pre-determined number or 000 number, so you can talk with your emergency contact person. There is no need to have a separate mobile phone.

The SOS Watch has its own sim card and operates nationwide and all incoming call from family and friends are included in the monthly monitoring fee. You have 25 outgoing minutes (SOS calls) included every month.

FEATURE OF SOS WATCH

E-Mail & facebook notification

Music app

Heart rate* & Pedometer
